comments on Dr Techniko

So far it has been a fantastic experience because it was interesting and packed with great mysteries. Personally, I loveit!
Korina B.

The program is awesome because I love solving difficult riddles. I have also learned a lot of things about programming.
 Harris V.

It is a really nice activity that is fun to play. You have to think and use your imagination to solve all of the hard riddles.
Lydia D.

It is a great experience playing Dr. Techniko with our teacher. I like many aspects of this game. Firstly it is fun to search for codes. Secondly it teaches programming which is really interesting. Dr. Techniko is one of the best computer games I have ever played.
*George M.*

Dr. Techniko is an interesting and knowledgeable experience that I will remember for the rest of my life. I thank the school for giving me such a nice chance to play this game.
Ellie L.

What I really ejoy about Dr. Techniko is solving the mysteries, working on teams, the knowledge you gain after every episode and in general the story line. The only negative aspect is that we only get to play it once a week during computer lessons.
Iliana K.

I really like and enjoy Dr. Techniko. I honestly think that it doesn't have any negative aspects. It helps you to understand how computers work better. Also you cooperate with your friends to try and solve the mysteries. Finally the story is really interesting and you want to know what happens in the next part. I really like it and I hope that the other grades will have the opportunity to play it.
Mark H.

Dr. Techniko is a really nice experience for me because it is like playing adventure hunt. It has a story that is really anticipating in a good way and I can't wait until I play the next episode.
Savvas S.

It has been a great experience playing Dr. Techniko with my friends. It was nice because I like video games and on the computer-this is very much like a video game but also educational. The thing that surprises me most is that we have to solve many mysteries which makes us feel happy. Also, I like the graphics of this game. Generally I enjoy playing it.
Triantis C.

Dr. Techiniko is without doubt a game that makes you think and explore the world of IT. I really like the game because you have to go through levels that get harder as you go along. Also I like the original idea of having to do this with your parents because it brings your family together. Sincerely I like everything about this game because it has everything you want a game to have. For example there is an awesome story like and many characters. In summing up I would like to say that I loved the experience of Dr. Techniko.
